ABOUT ME

Computer Engineering student interested in AI/ML with hands-on experience building academic projects and learning machine learning concepts. Familiar with Data Structures and programming in Java, C, and Python, and currently improving practical skills through continuous learning and project work.

PROJECTS

AI-Based Disease Prediction System

2025

React.js, TypeScript, Flask, Python

- Built AI disease prediction website using Bayesian probabilistic modeling.
- Modeled 14 x 14 symptom-disease relations with 196 CPTs for real-time probability ranking.
- Developed authenticated REST API with validation and frontend visualization.

Distributed Real-Time Voting System

2025

React.js, Nginx, PostgreSQL

- Developed distributed real-time voting platform with Nginx load balancing for high availability.
- Implemented PostgreSQL replication ensuring consistent multi-node data and fault tolerance.
- Built secure authentication, live vote updates, and responsive React interface.

EduPlatform - Learning Management System

2025

React.js, Node.js, Express.js, MongoDB, Socket.IO, Cloudinary

- Built full-stack LMS with course management, videos, and progress tracking.
- JWT authentication, role-based admin access, and scalable backend APIs.
- Enabled real-time notifications and cloud media storage for interactive learning.

EDUCATION

Vidyalankar Institute of Technology, Mumbai

2023 – 2027

B.Tech in Computer Engineering (Specialization: AI/ML)

CGPI: 9.96

H.V.P.S Ramniranjan Jhunjhunwala College (Science), Mumbai

2021 – 2023

HSC: 81.00%

S.I.E.S (Dr. APJ Abdul Kalam Memorial) High School, Mumbai

2021

SSC: 92.20%

SKILLS

Programming Languages: Python, Java, C, C++

Frontend Development: HTML, CSS, JavaScript, Bootstrap

Backend Development: Node.js, Express.js

Database: PostgreSQL

Tools & Cloud: GitHub, Microsoft Azure, Google Colab, Canva

Core CS Concepts: Data Structures and Algorithms, Artificial Intelligence, Software Engineering, Data warehousing and mining

Soft Skills: Problem Solving, Teamwork, Communication, Time Management, Quick Learner, Adaptability

ACHIEVEMENTS

- Advanced to the PPT round of **Smart India Hackathon** after clearing all internal college evaluation rounds in a competitive team-based national innovation challenge.
- Solved **95+ Data Structures and Algorithms problems** on **LeetCode**, strengthening problem-solving ability and algorithmic thinking.
- Successfully completed a 5-day onsite certification program in **Security Markets** from the **National Institute of Securities Markets**.
